

AIMX **SINGAPORE**

NOV
26-28

BRINGING THE GLOBAL AI
COMMUNITY TOGETHER

SANDS EXPO & CONVENTION CENTRE, SINGAPORE.

EVENT GUIDE

Organised by:

Powered by:

Held in Partnership with:

THE GROWTH OF AIMX SINGAPORE

Since 2023, AIMX Singapore has been the premier global event platform that brings together AI users, innovators, leaders and practitioners to showcase cutting-edge AI advancements across borders.

AIMX Singapore invites participants to engage with proven AI solutions and explore AI adoption in real-world use cases. Through visionary keynotes, panel discussions and interactive demonstrations, the event fosters meaningful dialogue and insight into both the transformative potential and the societal responsibilities of AI.

The third edition of AIMX Singapore this year focuses on the practical implementation of AI technologies and the development of sustainable digital capabilities. It is designed to empower organisations and individuals—regardless of where they are in their AI journey—to adopt impactful solutions, enhance their AI literacy, and accelerate innovation.

Through curated content tracks, hands-on learning, and targeted networking opportunities, AIMX Singapore supports real-world adoption while promoting ethical, inclusive, and responsible AI practices.

By bridging global perspectives and uniting diverse stakeholders, AIMX Singapore plays a vital role in shaping an AI-enabled future that is equitable, effective, and aligned with the needs of communities.

Company *Introduction*

Founded in 2018, Xmov is an AI technology company with 3D AI digital humans and generative artificial intelligence as its core technologies. It is also a pioneer in achieving full-stack technological breakthroughs and productized applications for 3D digital human AIGC.

Xmov has launched three AI digital human products: "Rendora," a 3D digital human AI video generation platform; "Youguang," a 3D AI digital human live streaming platform; "Youling," a 3D AI digital human agent platform; and "Embodia AI," an embodied intelligent 3D digital human open platform.

Xmov has completed hundreds of millions of US dollars in financing from renowned investment institutions, including SoftBank Vision Fund, Sequoia Capital, and ByteDance. Its products have been widely used in various industries such as education, training, finance, securities, news media, e-commerce, automotive, legal, FMCG (Fast-Moving Consumer Goods), and tourism. They empower numerous Fortune 500 companies, state-owned and centrally-managed enterprises, and industry leaders, including Haier, Yili, Bull, CHANDO, CCTV, ZTE, SDIC Group, CITIC Financial Holdings, Dongfeng Hongtai, and PowerChina.

Accolades

- **2023** – Named a unicorn company in the AIGC sector by Forbes.
- **2024** – Listed by Gartner as a leading technology company in the multimodal generation field, alongside Google and NVIDIA.
- **2024** – Honored as a Gartner "Cool Vendor" in Generative AI Native Applications as a notable enterprise in the generative AI field.
- **2025** – Selected for the Gartner report "Representative Vendors in Business-Vertical AI," becoming China's representative in the enterprise sector for digital humans and marketing empowerment.

LOGIN TO AIMX CONNECT

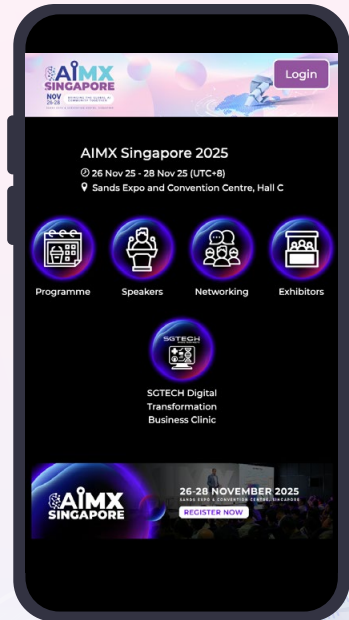

Enhance your AIMX Singapore experience by accessing AIMX Connect, our official web-based event platform designed to enhance your experience at the event.

Login to the AIMX Connect App to book meetings with other attendees and exhibitors, view the programme and speaker profiles – everything you need to maximise your time at AIMX Singapore, in one place.

You can

- Discover relevant AI Solutions
- Book meetings directly and secure an on-site Business Matching Lounge slot with attendees, exhibitors and speakers
- Access the conference programme and exhibition highlights
- Plan your visit better by bookmarking relevant profiles
- Book a free consultation slot at SGTech’s Digital Transformation Business Clinic

GENERAL INFORMATION

Dates: 26 – 28 November 2025

Opening Hours: 0900 to 1800

Last Admission: 1730

Venue

Sands Expo and Convention Centre, Hall C
10 Bayfront Ave, Singapore 018956

Admission Requisites

A valid Conference badge is required for entry to AIMX Singapore. Please wear it visibly at all times within the event premises. Your badge is personal and non-transferable. You may collect it at the Registration Area; please have your e-ticket or confirmation email ready to ensure a smooth collection process.

Attire

Visitors are required to be appropriately attired. Visitors wearing shorts, bermudas, singlets, slippers, sandals etc. will be refused admission to the event.

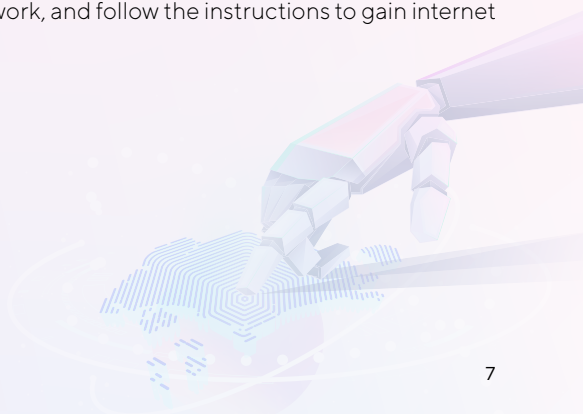

Age Restriction

Minors below 16 years of age will not be admitted, even if accompanied by an adult.

Internet Access

Complimentary WIFI is available within the Conference Venue. Please select the Marina Bay Sands wifi network, and follow the instructions to gain internet access.

EVENT HIGHLIGHTS

AI Innovation for Industry

Take a deep dive with AI leaders, practitioners and innovators as they take to the stage to showcase innovative AI solutions developed for industry use cases.

AI in Action (Tech Talk)

Showcasing the present and future of Embodied AI, get ready for a treat and interact with robots, autonomous machines and hardware that has integrated AI and found expression in the real world.

AI Gravity: Connecting Global AI Ecosystems

Highlights cross-border collaboration opportunities in AI and emerging technologies, contributing to the conversations on international partnerships to accelerate innovation, resources-sharing and products adoption.

SEA-LION Summit: Powering Southeast Asia's AI Future

Explores the opportunities and challenges Southeast Asia faces in scaling the adoption of large language models (LLMs), highlighting key strategies around infrastructure, talent development, and localised innovation to foster sustainable AI growth across the region.

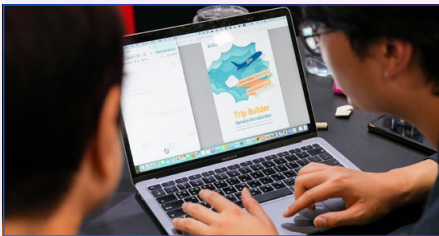

EVENT HIGHLIGHTS

AI Exhibition Showcase

Explore proven AI solutions for real-world industry use cases with AIMX Singapore's exhibitors. Technologies presented span a wide range of sectors, including cybersecurity, manufacturing, healthcare, robotics, and supply chain management.

SGTech Digital Transformation Business Clinic

Championed and hosted by SGTech, the Digital Transformation Clinic will feature SGTech's Digital Transformation Advisors ready to provide consultation to business owners and industry leaders on beginning their AI journey.

Robotics Showcase

Get ready to see AI in action through a wide variety of robots from leading robotics players. The Robotics Showcase is set to be the largest-ever display of AI-powered robot dogs and humanoid robots seen at any event in Singapore.

AIMX Connect

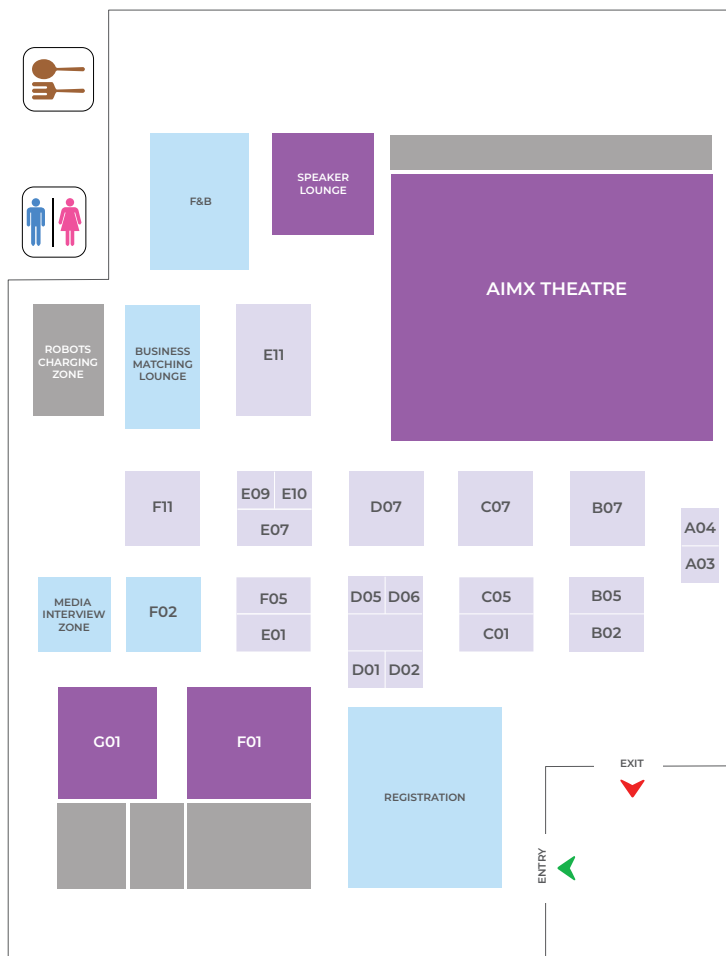

Unlock business matching opportunities with AIMX Connect by scheduling meetings with attendees and exhibitors, planning your itinerary with bookmarked sessions, and preparing your visit by saving key profiles and organisations you intend to meet.

Opening Address by Guest-of-Honour

Ms Jasmin Lau

Minister of State, Ministry of Digital Development and Information, Republic of Singapore

1020 – 1040

AI & Data: The Strategic Backbone of Singapore's Smart Nation 2.0

Amid the shift from globalisation to strategic resilience, Singapore must anchor core AI capabilities at home, accelerate innovation through a trusted ecosystem, and build AI-first competencies across its workforce. By converging these priorities, we ensure that value creation, technological sovereignty, and inclusive growth form the compact of Singapore's Smart Nation 2.0 vision at home, while powering the next wave of national competitiveness abroad.

Sutowo Wong

Managing Director, Data & AI, Temus

1100 – 1120

Human Hospitality in an AI World

As the travel industry embraces artificial intelligence, Langham Hospitality Group stands at the crossroads of heritage and innovation. Renowned for the human, genuine and intuitive guest servicing approach of its luxury and flagship brand, The Langham Hotels and Resorts, the Group is introducing a new generation of AI solutions designed to enhance operations across its portfolio while staying true to traditions that have defined its properties for 160 years.

Sean Seah

Senior Vice President – Strategy, Technology and Innovation, Langham Hospitality Group

1120 – 1200

Connected Industry – Transforming Transport, Logistics, and Supply Chains with AI and Emerging Tech

How AI and emerging technologies are revolutionising transport, logistics, and supply chain networks, creating connected, adaptive, and resilient ecosystems for the future.

Mark Tan

Regional Chief Executive Officer, Geopost

Dr Qin Zheng

Director of Systems Science Department, A*STAR Institute of High Performance Computing

Sunil Nambiar

Head of Operations for Strategy, Sustainability and Communications, YCH Group

1300 – 1320

From Copilot to Colleague: Why AI Agents Will Redefine Growth

AI copilots have already reshaped how we code and create. But the real frontier isn't in coding — it's in growth. Every year, B2B companies forfeit trillions to outdated playbooks, wasted leads, and inefficient funnels, while buyers demand more authenticity and trust than human teams alone can scale.

Enter the AI sales agent: not a tool, but a digital colleague. These synthetic sellers prospect, personalize, and qualify on your behalf — building social proof, nurturing opportunities 24/7, and extending the reach of every founder, executive, or sales leader. The question isn't if they'll transform go-to-market, but how fast. In this keynote, we'll explore why AI sales agents are poised to become the next billion-dollar copilots, how they turn noise into signal, and why the future salesforce will be part human, part synthetic — and far more powerful than either alone.

Leo Jiang

Founder & Chief Executive Officer, GroundAI

1320 – 1340

AI for Dementia Frailty & Healthy Longevity

Exploring how AI innovations are transforming dementia care, frailty management, and through early detection, personalised care, and preventive health solutions towards healthy longevity ready ecosystem.

Pushing the Frontiers of Embodied AI through Nature-inspired Sensorware

This Keynote by Prof Benjamin Tee, listed by Stanford University as one of the World's Top 2% Scientists and MIT TR35 Honouree, explores the latest advancements in embodied artificial intelligence (AI). He will share cutting-edge development of electronic skin (E-Skin) technologies that mimic human tactile sensing. These breakthroughs are transforming robotics and wearable devices, enabling them to perceive, interact and predict their environments more seamlessly and intuitively. The Keynote will also touch on the frontiers of embodied AI systems, enabling machines to operate in our physical world safely and intelligently.

AI Adoption Beyond the Pilot Trap: Building Scalable and Trusted Agentic Enterprises

AI use continues to broaden across industries, yet most organizations remain stuck in pilot mode. Why do so many promising proofs of concept never scale? In this session, Anup Kumar shares lessons from over 1000+ AI engagements across Asia Pacific to reveal the organizational, technical, and cultural barriers that hold enterprises back. He explores how Agentic AI—AI systems that act and collaborate responsibly—can help break this cycle. Drawing from real customer journeys, he shows what it takes to turn experiments into impact: the right architecture, measurable value, and trust built into every layer.

Anup Kumar

Head of Client Engineering Asia Pacific, IBM

1600 – 1620

Cybersecurity in the Age of AI: Building Trust and Resilience

Exploring strategies to safeguard AI ecosystems from evolving cyber threats while fostering innovation.

Veronica Tan

Director, Safer Cyberspace, Cyber Security Agency of Singapore

1620 – 1720

Fortifying the Digital Frontier – Cybersecurity Strategies for the Brave New AI World

Experts share insights on evolving cybersecurity threats and best practices to defend against attacks, ensuring robust protection against the evolving threats brought on by AI and technology.

From AIGC to AI Agent: Technology and Practice of AI-driven Cross-border E-commerce

With shifts in the global trade landscape, SMEs face heightened challenges in cross-border e-commerce operations across multiple areas: multilingual communication, cross-cultural adaptation, low-cost competition, regulatory compliance, and the demand for multidisciplinary talent. The rapid evolution of AI technology has now made it practically feasible to address these challenges. Alibaba International, leveraging its deep understanding of cross-border e-commerce scenarios, has developed AI technologies and products that seamlessly integrate cutting-edge innovation with real scenario applicability. These solutions have been rigorously tested and proven effective across diverse business applications—from AI-Generated Content (AIGC) to AI agents—demonstrating their value in reducing costs, enhancing operational efficiency, and uncovering new commercial opportunities for SMEs.

■ ABOUT US

Aidge specializes in cross-border e-commerce, empowering global businesses to break through language barriers with cutting-edge AI technology. We deliver contextually adaptive, high-quality text, image and video translation, ensuring your message resonates in every market.

Born from a bold vision, Aidge exists to make language no longer an obstacle, but an opportunity! By harnessing innovation, we bridge cultures, connect global audiences, and pave the way for a future where commerce knows no borders.

■ Key Advantages

- Self-developed premium AI models for e-commerce
- Supports 42 languages, covering global markets
- Strict compliance review to ensure safety and accuracy
- High-speed processing for large-scale business needs
- Affordable and flexible pricing based on consumption

AI translation, designed for e-commerce

TEXT TRANSLATION

Product titles, descriptions and live chat translations in 42 languages. Intervention glossary to keep industry terms and jargon intact.

IMAGE TRANSLATION

Instant text recognition in images, handling complex tables and multilingual layouts. High accuracy, layout restoration, and logo protection.

VIDEO TRANSLATION

Upload videos in one click, select your target language, and automatically generate natural-sounding voice clones and precise subtitles.

Go global,
multiply your
opportunities!

ROBOTICS SHOWCASE

Step Into the Future:

One of Singapore's Largest Humanoid & Next-Gen Robotics Showcase. Prepare for an unprecedented robotics experience at AIMX Singapore 2025.

The AIMX Singapore 2025 exhibition floor will feature an extensive display of humanoid robots, robotic dogs, AI-powered service machines, and advanced automation systems all in one event.

Attendees will be able to interact with cutting-edge humanoid robots

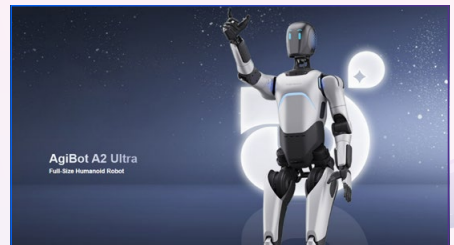

Watch live demonstrations of robotic dogs and field robotics

Explore real-world applications across hospitality, security, logistics, manufacturing, and more

Get ready for an up-close, immersive look at the future of robotics only at AIMX Singapore 2025

TRANSFORM *SMARTER*

Digital transformation is about using technology to improve how your business operates, makes decisions, and delivers value to customers.

Through our proprietary framework co-developed by PwC, our 1-1 Business Clinics help your business:

Identify cost-saving opportunities

Build a clear, practical roadmap

Align tools, people, and processes

Prepare your business for AI adoption

You don't have to do it alone.

SGTECH DIGITAL TRANSFORMATION BUSINESS CLINIC

Level Up Your Business with Practical, Results-Driven Guidance

Book your slot at our Digital Transformation Business Clinics, powered by SGTech, where expert consultants will walk you through the 3S Framework developed by PricewaterhouseCoopers (PwC).

Identify your digital gaps, map out a clear adoption plan, and uncover the solutions and capabilities your organisation needs to accelerate AI-powered growth.

Slots are limited and allocated on a first-come, first-served basis – be sure to reserve your session early on [**AIMX Connect**](#).

Exclusive On-Site Bonus

Complete your Digital Maturity Assessment (worth \$1,000) at the business clinic with our expert consultants and receive a FREE \$10 Starbucks voucher (while stocks last).

VOXHOLO

EMPOWERING TRADE, EDUCATION, AND SERVICE SECTORS WITH INTELLIGENT HUMAN INTERACTION.

WHAT IS VOXHOLO?

VoxHolo is a next-generation AI digital human developed in Singapore. It combines voice recognition, camera interaction, and a custom-trained AI model to enable life-like engagement for business, education, and service industries.

OUR CORE APPLICATIONS

- **Reception & Concierge Automation**
Smart front-desk greeter for corporates and banks
- **Trade Shows & Product Demos**
Always-on brand ambassador for exhibitions
- **Education & Training**
Interactive tutor and course assistant
- **Service & Public Info Kiosks**
Multilingual public engagement terminals

REGIONAL PRESENCE

VoxHolo is now deployed across Singapore, Malaysia, Indonesia, Thailand, and Vietnam.

LOOKING FOR PARTNERS

We are seeking local suppliers, system integrators, and content creators across different countries to expand the digital human ecosystem in Southeast Asia.

DISCOVER SENTOSA

Discover Sentosa Singapore's Island Charm, With Our Compliments

Sentosa is Singapore's favourite resort island – where golden beaches, lush nature, and world-class attractions meet. Delegates can unwind after business with thrilling adventure parks, award-winning golf, or simply relaxing by the sea. With vibrant dining, beach clubs, luxury resorts, and wellness retreats, Sentosa transforms any trip into a memorable island getaway.

Discovery Choice Pass

From now till 30 March 2026, Sentosa is excited to offer all International MICE delegates a Discovery Choice Pass where you can enjoy ONE complimentary attraction of your choice.

Discover participating attractions and redemption steps by clicking [Redeem Now](#).

Step back in time at Fort Siloso, Singapore's only preserved coastal fort.

On this complimentary guided tour, delegates can explore secret tunnels, authentic WWII guns, and interactive exhibitions that bring history to life.

Led by knowledgeable guides, the experience offers fascinating insights into Singapore's wartime past while taking in stunning views of the harbour.

A perfect blend of culture, heritage, and leisure – right on Sentosa. Act fast – limited slots, limited-time offer! [Sign Up Now](#)

ABOUT THE AIMX NETWORK

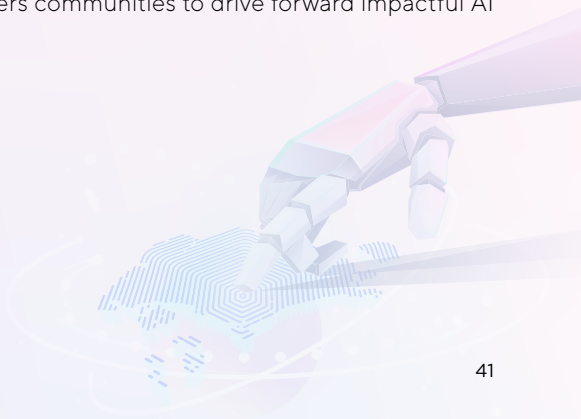

The [AIMX Network](#) is a global community that brings together AI users, industry leaders, researchers, practitioners, and innovators with a shared purpose: to explore and address the most critical and complex question defining the present and future of AI: HOW.

Through thoughtfully curated events, programmes, and collaborative initiatives around the world, the AIMX Network enables the development of vibrant regional AI ecosystems. These activities not only showcase groundbreaking technological advancements but also enables the implementation of AI solutions in the real world, and enhance the capabilities of AI users and practitioners.

AIMX Network's regular [podcasts](#), Meetups, and [MX Bytes](#) newsletters presents the most current knowledge and conversations around the real-world implementation of AI, based on the key content domains of:

- **AI for Industry:** Exploring AI solutions and how they are implemented across industries and society.
- **AI Skills & Capability-Building:** Enhancing general literacy of AI tools across industries and society, and upgrading the capabilities of practitioners.
- **AI Innovation:** Facilitating connections between AI startups, investors and industry players.
- **AI Under the Hood:** Getting deep into the current and emerging AI technologies.

By fostering meaningful dialogue, knowledge exchange, and cross-disciplinary collaboration, the AIMX Network empowers communities to drive forward impactful AI solutions.

ABOUT AI GRAVITY

AI GRAVITY is a core programme within the AIMX Network, designed as a strategic global initiative launched by the DLG Exhibition & Events Group. Its mission is to harness the transformative power of AI to connect markets, ecosystems, and industries — fostering cross-border collaboration opportunities that drive innovation and sustainable growth.

As part of the AIMX Network, AI GRAVITY serves as a collaborative platform to bridge regional ecosystems, empower cross-border development, and cultivate international partnerships that accelerate the global AI landscape.

Focusing on three strategic regions — Asia-Pacific, the Middle East, and Europe — AI GRAVITY leverages region-specific, high-level, and customised event platforms to achieve precise alignment between China's leading AI technologies and emerging international markets.

Through engagement with governments, enterprises, investors, and academia, AI GRAVITY fosters a cross-border AI ecosystem that enables knowledge sharing, technology adoption, and business collaboration — empowering regional AI ecosystems to achieve long-term growth and breakthrough innovation.

AI GRAVITY will empower partners across five key dimensions:

- **Facilitating global investment and technology exchange:** Promoting more active cross-border investment and technology collaboration between China and global AI ecosystems.
- **Accelerating startup growth:** Creating targeted connection channels for startups in China and ASEAN to engage with key investors, major enterprises, and regulatory authorities.
- **Building bridges for public-private collaboration:** Aligning resources and enabling joint efforts to drive efficient and coordinated AI industry development.
- **Strengthening thought leadership:** Uniting diverse perspectives to advance responsible AI development and enhance global influence.
- **Expanding global networks:** Establishing international partnerships in research, innovation, and commercialisation to broaden global reach.

Together with AIMX Network, our vision is to cultivate an open, inclusive, and future-oriented AI ecosystem where innovation transcends borders — empowering global collaboration and shared prosperity.

ABOUT THE ORGANISER

MP SINGAPORE

Trusted since 1987, MP Singapore embodies more than a quarter century of event building, marketing and management experience in both Eastern and Western cultures, practices, and business philosophies.
